Unfinished Business

The Talbot Innovative Middle School initiative was discussed and Gary Carreiro thanked all members who participated in this worthwhile event which promoted our hobby to the middle school kids through AMA and Mr. Kennedy's aviation program at the middle school. We have been invited back for future dates. Grass cuttings and field maintenance were discussed and we will be going along with the current process for cutting the grass which is email and notification of who and when the grass will be cut. Gary Carreiro reiterated the message to have your AMA and club membership card on hand at all times when at the field. This will eliminate and questions that Dave Brownell and the monitoring of any non-members that should not be flying.
